Coach's Report

- Coaches have a good sense of the players now especially the kids who consistently show up for work-outs & practices = meeting 3 days a week up until now, starting in June will be 4x a week and 1st week of July & 1st week of August will be off.
- Heat Acclimatization week - 8/7/22-8/13/22. Mandatory for all players to attend. 1st day – helmets, rest of the week – uppers
- Equipment will be handed out on Friday, 7/29/22, to players who have submitted paperwork for physical
- Practices start daily on 8/15/22
- Good increase in testing of players – 25% increase in bench, 50% increase in squats & increase of 8% in power clean from March
- College Recruiting – college camps are set up all over the state/country
- Camps will mostly have D2 & D3 recruiters
- Camps are money makers for the colleges so recommended to only pick 1-2 camps to participate in – there will usually be 4-8 recruiters from various schools there
- Selected players will already be there by invitation – need to be have size, height & be a great player in order for colleges to notice them
- Camps are for any age – good for fun.
